Rockville, Maryland 20857 P: 30  
Dear Dr. Henney:

Please ban antibiotics as livestock growth promoters. Using antibiotics as a feed additive to fatten livestock more quickly is making disease-causing bacteria more resistant to the drugs we use to cure t.b., pneumonia, and staph. infections. The more antibiotics we use, the more likely it is for bacteria to become resistant.

Please do ban the use of antibiotics in livestock feed for the sake of human health! Please support the FDA petition to ban the use of antibiotics as growth promoters. Thank you for caring about people's health!

Sincerely,  
M. Ruth Niswander  
622 Barbera  
Davis, Ca. 95616
